Our cultural heritage

AURA

AURA was the goddess of the breeze and the fresh, cool air of early morning.

She was a virgin-huntress who was excessively proud of her maidenhood. In her hubris she dared to compare her body with that of the goddess Artemis, claiming that the goddess was too womanly in form to be a true virgin. Artemis sought out Nemesis (Retribution) to avenge her dignity, and as punishment, Aura suffered rape at the hands of Dionysos. This crime drove her to madness and in her fury she became a ruthless, slayer of men. When her twin sons were born, Aura swallowed one whole, whilst the second was snatched to safety by Artemis. Zeus then transformed her into her namesake breeze "aura".
